## Advances in Ophthalmology Series

### International Expert Lecture

*Online by ZOOM*

### Five Compelling Lessons from the Greatest Team of Cataract Surgeons

#### Professor David F. Chang, MD

University of California San Francisco and  
Altos Eye Physicians, Los Altos, CA

Introduction by Prof Calvin C. P. Pang

**Moderator** : Prof Alvin Young

**Date** : 19<sup>th</sup> August 2021 (Thursday)

**Time** : 18:30 – 19:15

Professor David F. Chang, one of the world's most recognized and decorated cataract surgeon with many prestigious honors and awards, is regularly voted by his peers as a top ophthalmologist in USA. He is clinical professor at UCSF since 1999, a former President of ASCRS, and co-Chair of ASCRS Foundation since 2015. He has taught cataract surgery to ophthalmology residents in training for more than 35 years, authored 5 best-selling textbooks on cataract surgeries, contributed hundreds of original articles and reviews, and actively practices cataract and lens implant surgeries. Professor Chang travels to advance ophthalmic services and teaches cataract surgery globally, including many times to Hong Kong and mainland China.

Due to his heavy engagements at the ASCRS annual meeting, Prof Chang is unable to present his lecture personally even though he had wanted to do so despite the inconvenient San Francisco time, 3:30-4:15AM. He prepares a video specifically for us with a special encouragement: **"The lecture illustrates that as long as you have good clinical data, you can make impactful contributions to ophthalmology, even those in developing countries such as India have made a huge impact."**
