About CUHK Jockey Club Ophthalmic Microsurgical Training Programme (CUHK JC OMTP)

The Department of Ophthalmology and Visual Sciences of the Faculty of Medicine at The Chinese University of Hong Kong (CUHK) has received a generous donation from The Hong Kong Jockey Club Charities Trust for the establishment of the CUHK Jockey Club Ophthalmic Microsurgical Training Programme. With the commencement of this programme in January 2018, eye doctors and eye care professionals will be able to learn, practise and enhance their surgical and procedural skills in simulation environment without any risks to patients.

The CUHK JC OMTP provides high-fidelity simulated eye surgery training with artificial eyes, animal eyes and adnexa, as well as computer-generated 3-dimensional virtual reality operative environments. There are 6 versatile work stations equipped with operating microscopes with floor stands and foot control pedals for the best visualization enabling microsurgical operations with the highest precision. The ergonomics of our work stations mimic the operating theatre as closely as possible.

One of the key elements of success of CUHK JC OMTP is the availability of dedicated and highly professional instructors from Hong Kong's public hospitals, both universities and private sector, who are qualified by the College of Ophthalmologists of Hong Kong. In addition to Hong Kong's asset of highly qualified and skilled ophthalmic surgeon trainers, a number of well-renowned international advisors have made major contributions to each of the subspecialties of our training programme.

From Prof Rocky S. TUAN, Vice-Chancellor and President, The Chinese University of Hong Kong

“With the tremendous support from all parties, I believe that CUHK JC OMTP will greatly contribute to the medical service in Hong Kong by providing excellent healthcare to the public and by reinforcing Hong Kong's leading role in ophthalmic training within the Asia Pacific region.”

Prof Rocky S. TUAN

*Vice-Chancellor and President
The Chinese University of Hong Kong*

Message

From Prof Francis CHAN, Dean, Faculty of Medicine, The Chinese University of Hong Kong

“Over the years, CUHK Medicine has been committed to promoting medical professional training and research. CUHK JC OMTP not only provides an ideal platform for effective and quality professional training, but also promotes the development of ophthalmic microsurgical technology.”

Prof Francis CHAN

Dean

Faculty of Medicine

The Chinese University of Hong Kong

From Prof Clement THAM, Chairman, Department of Ophthalmology & Visual Sciences, The Chinese University of Hong Kong

“ Our programme aims to raise the standard of ophthalmic microsurgical training and education in Hong Kong to be amongst the very best in the world. It provides hands-on learning and practicing of ophthalmic microsurgical skills for eye doctors in a safe, simulated environment, without disrupting routine clinical services and risking complications to patients.

At the CUHK, we are proud to offer the best and safest ophthalmic microsurgical training for both basic and advanced eye surgery in Hong Kong. Our training will also be extended to overseas eye doctors in future for Hong Kong to become an internationally-recognized hub for top-notch ophthalmic microsurgical training.

”

Prof Clement THAM

*Chairman
Department of Ophthalmology &
Visual Sciences
The Chinese University of Hong Kong
Director
CUHK JC OMTP*

Message

From Prof John LEONG Chi-yan, Chairman, Hospital Authority

“

With the generous support of the Hong Kong Jockey Club Charities Trust, the CUHK JC OMTP provides the state-of-the-art training facilities for eye doctors to learn, practice and enhance their surgical and procedural skills in simulated environment without any risks to patients.

”

Prof John LEONG Chi-yan

*Chairman
Hospital Authority*

From Dr LEUNG Pak-yin, Chief Executive, Hospital Authority

“ Alongside the ageing population of Hong Kong and an increasing percentage of the younger generation suffering from vision-related complaints comes the fast growing demand for ophthalmology services. With the generous support of the Hong Kong Jockey Club Charities Trust, I am looking forward to witnessing more breakthroughs in diagnosis and treatment arising from the activities of the CUHK Jockey Club Ophthalmic Microsurgical Training Programme.

”

Dr LEUNG Pak-yin

*Chief Executive
Hospital Authority*

From Dr Albert LO, Cluster Chief Executive (Kowloon Central), Hospital Authority

“As the population ages, the number of elderly patients suffering from major eye diseases, such as cataract, glaucoma and retinal diseases is constantly on the rise. I believe that more effective eye surgery training, free from risks to patients, is very much needed to train up a new generation of eye doctors in the latest ophthalmic microsurgery. The commencement of CUHK JC OMTP can aptly address this need.”

Dr Albert LO

*Cluster Chief Executive (Kowloon Central)
Hospital Authority*

Message

From Ms Imelda CHAN, Head of Charities (Grant making – Elderly and Family), The Hong Kong Jockey Club

“

The Hong Kong Jockey Club has been a staunch long-standing supporter of medical and healthcare services development in the city, as exemplified by its donations to The Chinese University of Hong Kong to implement the CUHK Jockey Club Children's Eye Care Programme and CUHK Jockey Club Ophthalmic Microsurgical Training Programme, which provide eye examinations for children and advanced training for medical professionals respectively.

As one of the world's top ten charity donors, the Club spares no efforts in addressing social needs and promoting sustainable development of the community with innovative, collaborative approaches.

”

Open Day

The Open Day was organized from 9th to 10th February during the APAO Congress 2018 Hong Kong.

We were exceedingly delighted to invite more than 40 delegates of APAO Congress to visit our state-of-the-art facilities in Ophthalmic Microsurgical Training Centre (OMTC).

Our VIP guests experiencing the CUHK Jockey Club Ophthalmic Microsurgical Training Programme.

Opening Ceremony

The Opening Ceremony was held on 14th July 2018 at the Hong Kong Eye Hospital.

Officiating guests included (from left) Prof Clement THAM, Chairman, Department of Ophthalmology and Visual Sciences, CUHK; Prof Tai Fai FOK, Pro-Vice-Chancellor of CUHK; Prof Rocky S. TUAN, Vice-Chancellor and President of CUHK; Prof John LEONG Chi-yan, Chairman of the Hospital Authority; Ms Imelda CHAN, Head of Charities (Grant Making - Elderly and Family), HKJC; Dr Albert LO, Cluster Chief Executive (Kowloon Central), Hospital Authority; and Prof Francis CHAN, Dean of the Faculty of Medicine at CUHK.

(From Left) Prof Rocky S. TUAN, Vice-Chancellor and President of CUHK; Prof John LEONG Chi-yan, Chairman of the Hospital Authority and Ms Imelda CHAN, Head of Charities (Grant Making - Elderly and Family) of the HKJC were demonstrated on the use of microsurgical equipment on an artificial eye by Prof Clement THAM and Dr Danny NG.

Prof Clement THAM (2nd from right) introducing the ophthalmic microsurgical training facilities to guests at the Opening Ceremony.

*Details of OMTP were introduced at the press conference.
(From left) Dr Danny NG, Prof Clement THAM, Dr Jason YAM*

Our Academic Links

The College of Ophthalmologists of Hong Kong Training Curriculum Review Committee visited the Ophthalmic Microsurgical Training Centre.

(From left) Dr Alan NG (private sector), Dr Jonathan CHAN (Assistant Professor, The University of Hong Kong), Prof Hunter YUEN (Consultant, Hong Kong Eye Hospital), Dr Carmen CHAN (Consultant, Hong Kong Eye Hospital), Dr Simon KO (Chief-of-Service, Hong Kong East Cluster), Dr Shaheeda MOHAMED (Associate Consultant, Hong Kong Eye Hospital), Dr Danny NG (Assistant Professor, DOVS, CUHK), Dr YUNG Hon Wah (Consultant, Tuen Mun Eye Centre), Dr Poemen CHAN (Assistant Professor, DOVS, CUHK), Dr Emily YEUNG (private sector) and Dr Helena SIN (Associate Consultant, Prince of Wales Hospital).

During World Ophthalmology Congress 2018 at Barcelona, Spain, Dr Danny NG, Vice Director of CUHK JC OMTP, exchanged experiences and insights for utilizing virtual reality simulation technology to provide effective and efficient training of ophthalmic microsurgery for our future eye doctors.

(From left): Dr Danny NG (DOVS, CUHK), Mr George SALEH (Moorfields Eye Hospital, UK), Dr Ivo FERREIRA (Instituto de Oftalmología, Mexico), Dr Ann Sofia Skou THOMSEN (Department of Ophthalmology and Copenhagen Academy for Medical Education and Simulation, Denmark), Dr Markus SCHILL (VRmagic Holding AG, Germany) and Prof Colin McCannel (UCLA Medical Center, United States).

Mr George SALEH, Director of Simulation Training for Moorfields Eye Hospital, Ophthalmic Simulation Lead at the London Deanery and Consultant Ophthalmic and Oculoplastic Surgeon of Moorfields Eye Hospital, visited us and gave a lecture on *Simulation surgical training at Moorfields, UK* on 29th October 2018.

(From left): Mr George SALEH (Moorfields Eye Hospital, UK), Prof Calvin PANG (DOVS, CUHK)

Dr Danny NG, Vice Director of CUHK JC OMTP, received the Gold Medal Award for his outstanding participation in the Leadership Development Program (LDP) of Asia-Pacific Vitreo-retina Society (APVRS) at the APVRS Congress in Seoul in December 2018. In addition, Dr Danny NG was also presented the Best Self-Initiated Project Award from APVRS LDP, for his significant contributions to the development and operation of CUHK JC OMTP.

(From left): Prof Dennis LAM (Honorary Clinical Professor, DOVS, CUHK), Dr Danny NG (Assistant Professor, DOVS, CUHK)

Our Facilities

Our state-of-the-art microsurgical training equipment, including the same up-to-date equipment available in the operating theatre, will enable high fidelity simulation training experiences to ophthalmology residents, subspecialty fellows and practicing surgeons. Our facilities include:

Core Skills

Course Name

Basic Ophthalmic Microsurgical Skills Workshop

Course Coordinator

- Dr Danny NG
Assistant Professor, Department of Ophthalmology & Visual Sciences, The Chinese University of Hong Kong

Course Instructors

- Dr Kendrick SHIH
- Dr Joy LEUNG
- Dr Raymond WONG
- Dr Ka Wai KAM
- Dr Danny NG
- Dr John YEUNG
- Dr Leonard YUEN
- Dr Marcus MARCET
- Dr Alvin AU

Date

7th July 2018

Core Skills

Course Name

Pterygium Surgical Management Workshop

Course Coordinator

- Dr Danny NG
Assistant Professor, Department of
Ophthalmology & Visual Sciences,
The Chinese University of Hong Kong

Course Instructors

- Dr Vanessa CHOW
- Dr Gloria LEUNG
- Dr Derek CHUNG
- Dr Michelle FAN
- Dr Lawrence IU
- Dr Alex NG
- Dr Danny NG

Date

18th July 2018

Core Skills

Course Name

Anterior Segment Laser Workshop for Resident Trainees

Course Coordinator

- Dr Danny NG
Assistant Professor, Department of Ophthalmology & Visual Sciences, The Chinese University of Hong Kong

Course Instructor

- Dr Jacky LEE
Honorary Clinical Assistant Professor, Department of Ophthalmology and Visual Sciences, The Chinese University of Hong Kong Private Practice

Date

28th September 2018

Core Skills

Course Name

Posterior Segment Laser Workshop for Resident Trainees

Course Coordinator

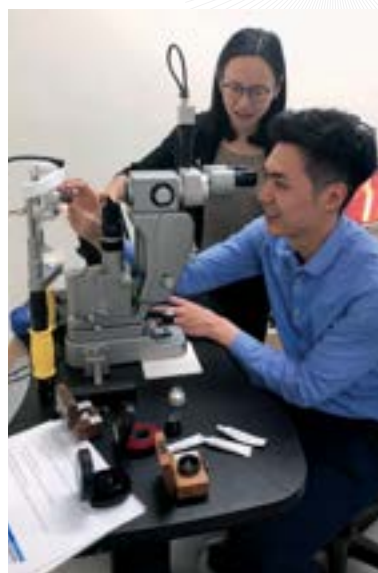

- Dr Danny NG
*Assistant Professor, Department of
Ophthalmology & Visual Sciences,
The Chinese University of Hong Kong*

Course Instructor

- Dr Pui Pui YIP
*Honorary Clinical Assistant Professor,
Department of Ophthalmology and Visual Sciences,
The Chinese University of Hong Kong
Private Practice*

Date

11th October 2018

Cataract & Lens

Course Name

Basic Phacoemulsification Workshop

Course Coordinator

- Dr Tommy CHAN
*Specialist in Ophthalmology,
Hong Kong Sanatorium & Hospital
Honorary Clinical Assistant Professor,
Department of Ophthalmology & Visual Sciences,
The Chinese University of Hong Kong*

Course Instructors

- Dr Vanessa CHOW
- Dr Derek CHUNG
- Dr Michelle FAN
- Dr Ka Wai KAM
- Dr Joy LEUNG
- Dr Danny NG
- Dr Kendrick SHIH

Date

26th May 2018

Cataract & Lens

Course Name

Extracapsular Cataract Extraction (ECCE) Workshop

Course Coordinator

- Dr Danny NG
*Assistant Professor, Department of
Ophthalmology & Visual Sciences,
The Chinese University of Hong Kong*

Course Instructors

- Prof LAM Nai Man
- Dr Keith CHAN
- Dr Ka Wai KAM
- Dr Gloria LAU
- Dr Alex NG
- Dr Danny NG
- Dr Mandy WONG
- Dr Irene YEUNG

Date

11th July 2018

Glaucoma

Course Name

Basic Trabeculectomy Workshop

Course Coordinators

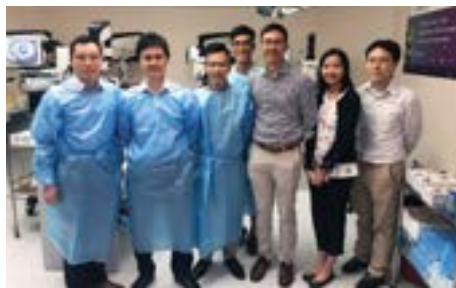

- Dr Poemen CHAN
Assistant Professor, Department of Ophthalmology & Visual Sciences, The Chinese University of Hong Kong
- Prof Clement THAM
*Chairman and S.H. Ho Professor of Ophthalmology & Visual Sciences, The Chinese University of Hong Kong
Honorary Chief-of-Service, Hong Kong Eye Hospital
Honorary Consultant, New Territories East Cluster Ophthalmology Service
Vice President and Fellowship Examiner, The College of Ophthalmologist of Hong Kong*

Course Instructors

- Prof Clement THAM
- Dr Mandy WONG
- Dr Dexter LEUNG
- Dr Felix LI
- Dr YUNG Hon Wah
- Dr Nancy YUEN
- Dr Poemen CHAN

Date

28th – 30th May 2018

Glaucoma

Course Name

Practical Workshop for MicroPulse Transcleral Cyclophotocoagulation (MicroPulse TCP)

Course Coordinators

- Dr Poemen CHAN
Assistant Professor, Department of Ophthalmology & Visual Sciences, The Chinese University of Hong Kong
- Prof Clement THAM
*Chairman and S.H. Ho Professor of Ophthalmology & Visual Sciences, The Chinese University of Hong Kong
Honorary Chief-of-Service, Hong Kong Eye Hospital
Honorary Consultant, New Territories East Cluster Ophthalmology Service
Vice President and Fellowship Examiner, The College of Ophthalmologist of Hong Kong*

Course Instructors

- Dr Poemen CHAN
- Dr Billy WONG

Date

19th July 2018

Corneal

Course Name

Penetrating Keratoplasty Course

Course Coordinator

- Dr Ka Wai KAM
Associate Consultant, Department of Ophthalmology & Visual Sciences, Prince of Wales Hospital, New Territories East Cluster

Course Instructors

- Prof Alvin YOUNG

- Dr Chi Wai TSANG

Date

8th – 9th May 2018

Messages from our Subspecialty Advisors

“With simulation training, patients and also surgeons’ safety and satisfaction can be greatly enhanced. As a result, one can master and acquire surgical skills at a much quicker pace.”

Prof Alvin YOUNG

“The beauty of simulated surgical training is that you can learn all the skills and techniques in a completely safe and also stress-free environment. We encourage candidates to practice the procedures many times until they are perfectly comfortable and confident before they start operating on real patients.”

Prof Clement THAM

“The most important of all is the virtual reality training. This is quite new in ophthalmology and the surgeons would learn muscle memory, which to me is very important.”

Dr John CHANG

“The concept of simulated surgeries has been widespread throughout ophthalmology. If someone can practise their surgery in the animal model or in a simulated model first before going to operate on human subject, definitely the safety of the surgery, the efficiency as well as the speed of learning would be much enhanced.”

Prof Hunter YUEN

“Nowadays, patients’ expectations on surgeons’ skills are very high, especially in parents. It is difficult to tell them that the surgeons have not undergone any simulation training before they operate on a real patient. I think for paediatric case, it is particularly true because we do not have a lot of surgical cases. In order to make best use of this opportunity, and the patients’ benefits, they should acquire this basic skill before they operate on a real patient.”

Dr Simon KO

Feedback from our Participants

“ It is a very unique opportunity for us. And it is a privilege for us, young residents, that previous generation residents might not have. ”

Dr Thomas LAM
Resident Trainee, Hong Kong Eye Hospital

“ I found this course very useful. It quite accurately represented what it would be like in surgery with a real patient. We used artificial eyes and we also had a phaco machine available for us to practice. ”

Dr Vikki NG
Resident Trainee, United Christian Hospital

“ I feel more confident after practicing more on the artificial eyes or the pig eyes at this training centre. And it gives me more confidence to help my patients. ”

Dr Cherie WONG
*Resident Trainee,
Hong Kong Eye Hospital*

“ I feel that this course is very well organized that we started off from our professors to learn about the basic techniques, and they share with us their experiences on how to perform the surgery. Overall, I would definitely recommend this course to my peers who would join Hospital Authority. ”

Dr Kelvin WAN
Resident Trainee, Tuen Mun Hospital

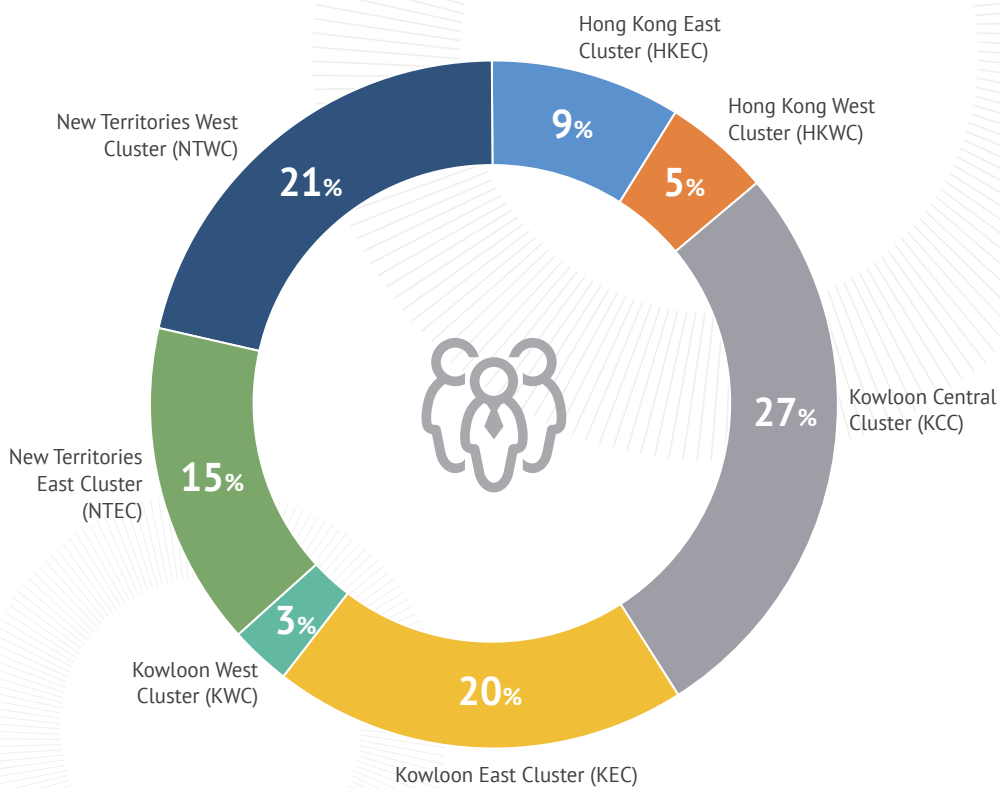

“ It makes me feel a lot more confident when going into the operating theatre operating on real patients. ”

Dr Geoffrey TANG
*Resident Trainee,
United Christian Hospital*
